REG-Mobile Tornado Group New Agreement

Released : 05/12/2007

RNS Number:1904J
Mobile Tornado Group PLC
05 December 2007

Mobile Tornado Group plc
("Mobile Tornado" or "the Company")

MOBILE TORNADO SELECTED BY ERICSSON HONG KONG TO DELIVER ITS PUSH TO TALK SOLUTION TO COMPANHIA DE TELECOMUNICA ES DE MACAU S.A.R.L.

Mobile Tornado, one of the world leaders in the development and deployment of convergent instant communication applications has announced today its agreement with Ericsson Hong Kong to deliver its Push to Talk ('PTT') solution to Companhia de Telecomunicacoes de Macau S.A.R.L. ("CTM Macau"). Mobile Tornado will provide its complete network infrastructure to launch this new service.

The PTT service will be targeted at business users who require fast and constant communication links with work teams. The solution will allow the establishment of half-duplex voice links where one person speaks and the other listens, either in a group or one to one, with the push of a button. The Mobile Tornado solution also possesses enhanced 'Presence' capability, allowing users to know their contacts' availability status thus facilitating more efficient and effective communication between users.

Jeremy Fenn, Managing Director at Mobile Tornado said:

"We are delighted to announce this agreement with Ericsson Hong Kong and CTM Macau. CTM Macau is a world-class telecommunications company that is playing a major role in the ongoing development of Macau's infrastructure. The introduction of PTT services in Macau offers CTM Macau cutting edge technology to put them in line with the world leaders in the telecommunication industry. I am certain that CTM Macau's corporate clients will appreciate the additional functionality that PTT gives its users resulting in more efficient and effective communication between groups of users. Macau's numerous casinos and entertainment establishments have already expressed great interest in the system which will enable them to link security and maintenance teams with the operations centres.'

About Mobile Tornado Group Plc

Mobile Tornado is a leading provider of instant communication solutions to mobile operators and enterprises throughout the world. The proprietary IPRS ('Internet Protocol Radio Service') technology platform, powers communication sessions which can instantaneously transmit voice, text or other data, and video clips with an easy-to-use, one-click, "push-to" button on the mobile phone. "Push-To" sessions can occur in one-to-one, one-to-many, mobile-to-PC and PC-to-mobile modes without any range limitation worldwide. The technology provides a real-time presence function to ensure that users are able to see instantly whether their contacts are online allowing for more efficient and effective communication. Next generation services such as Push to Video and the integration of popular Instant Messaging engines such as MSN and ICQ are designed to attract the ever expanding and technology aware youth audience. Mobile Tornado offers software licences and services to mobile operators and enterprises worldwide through a number of distribution partners.
